

ABNOX[®]

Lubrication & Metering Solutions

For Smooth Operations

It all began in 1946

... when the lubrication press factory ABNOX AG was founded in Cham. In 1998, Werner Iseli took over the craftsman's business and expanded the Metering Technology, Grease Supply, Lubrication Technology and Clamping Technology divisions.

Matthias Iseli joined the company in 2005 and was later joined by Benjamin and Bettina Iseli. Together with the team we are constantly developing further. Today, ABNOX AG is a leading international developer and producer.

Our clients

Our focus are our customers. Their goals and challenges are our incentives for top performance.

In order to meet the different and unique requirements, we develop and design flexible and individual system solutions. We are known worldwide for our tailor made offers and modular component solutions.

Our values

... are lived since the foundation of ABNOX AG. Its founders planted a cherry tree (the region is known for its cherry trees) and laid the foundation for the successful development. To this day, we give our company the necessary attention and care. This is how we are able to harvest success and loyalty year after year.

Get to know the history of our cherry tree.

Swiss Made

Our roots are in Central Switzerland. Until today ABNOX creates values as well as jobs and educates young people in various professions at the Cham site.

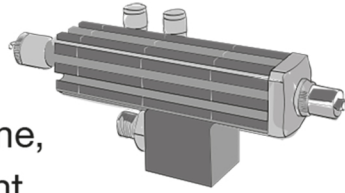

We are convinced of Switzerland as a location. Here we can make the development and production of our high-end solutions possible with the highest precision and quality.

Our areas

Metering Technology:

Process-safe application of lubricants; at the right time, at the right place, in the right quantity.

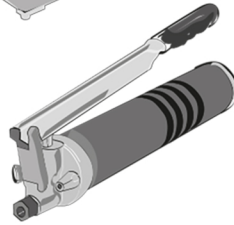

Grease Supply:

Simple, safe conveying of viscous media using pump systems.

Lubrication Technology:

Reliable grease pumps for manual lubrication of lubrication points.

Clamping Technology:

Systems for hydraulic clamping of tools for the metal and wood industry.

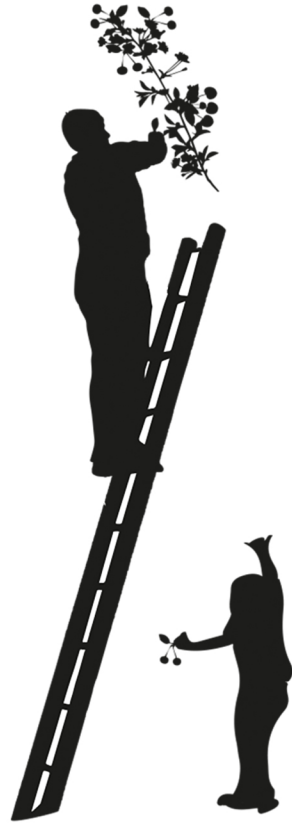

Your advantages

We guarantee you high economic efficiency due to the long service life of our solutions.

At the same time, they are precise, reliable, flexible, modular, low-noise and easy to handle.

Comfort is great and contamination is minimal. On top, our team is here to support you.

Welcome

Do you appreciate our values? Then you have come to the right place. Become part of ABNOX: as a customer, a partner or an employee.

We look forward to meeting you!
